

ARTINOX

WORKSTATION SINKS

WORKSTATION SINKS

HISTORY AND PASSION

Artinox was founded in 1985 by Mario Zanardo in Conegliano in one of the most important Italian industrial areas known for the stainless steel processing. Dedicated to the high-end kitchen market, all our collections are designed and produced with passion in our factory and distributed all over the world.

QUALITY AND SUSTAINABILITY

Beyond the intrinsic qualities of the raw material, we are committed to the implementation of our environmental management system. At Artinox we have been using the control of all processes to guarantee the maximum result of the services offered - ISO 9001 certification - and taking care of the factors interacting with the environment - ISO 14001 -.

FUNCTIONAL DESIGN

At Artinox we revolutionize the time spent in the kitchen. All of the Workstations are integrated into the worktop becoming one. The sliding system allows the positioning and the sliding of infinite accessories dedicated to multiple functions; from grids to supports, from chopping boards to containers, these accessories are made to last and to serve with a simple gesture.

OUR STAINLESS STEEL

Our stainless steel AISI 304 and AISI 316 it's used in both domestic and professional environments while meeting all industry standards. It's extremely easy to clean thanks to the non-porous surface, which results in a high antibacterial property. Our steel is unalterable over time, is made up of over 70% recycled materials and is 100% recyclable.

Artinox has chosen AISI 316 L for the OUTDOOR collection, a complete range of products dedicated for the outdoors. This stainless steel is a specialty material, typically used in marine and surgical environments. It offers very high resistance to saltiness as well as food acids.

DETAILS THAT MAKE THE DIFFERENCE

Dedicated accessories

The stainless steel accessories, always thickly produced in our factories, are dishwasher safe.
The chopping boards are made of wood or non-toxic polyethylene.

High thickness steel

We use AISI 304 stainless steel of increased thickness compared to normal market standards, guaranteeing robust products with a unique design.

Welded products

Artinox produces exclusively Kitchen systems with welding process, 10mm radius corner or zero/45 radius corners.

Generous sizes

Collections are available in various sizes from 170 to 250 depth.
Large capacity and functionality.

Holes

All the models in our collections are set up with one or two 35 mm diameter holes for housing the mixer. Additional holes can be requested.

Pop-up kit

The practical push pop-up kits, combined with the drains system, avoid getting your hands wet in emptying the sink. These are products from selected Italian partners.

Overflowing system

All products have an integrated back wall overflow and are designed without joints to ensure maximum hygiene.

Drainage enhanced bottoms

The outflow of the water is guaranteed also by an invitation near the drain and, in specific collections, also by elegant diamond-finished basin bottoms.

3 1/2" Drains

The exclusive drains of our models are produced by selected Italian partners. All models, variants and colors are always in stainless steel.

PaperStone®

PaperStone® is created from recycled paper and a proprietary resin. It is committed to innovative green products that contribute to an environmental sustainability.

A SET-UP FOR EVERY STYLE

Over-mount

The over-mount option always allows easy installation on tops of any material.

Flush-mount

The visible perimeter of the Flush-mount evokes cleanliness, the edge is perfectly rectified with a two tenths of a millimeter tolerance.

Under-mount

The Under-mount solution allows you to make the most out of the surface of the kitchen countertop.

Edgeless

The Edgeless installation allows worktop edges to join maximizing the combination between hygiene and aesthetics.

Integrated

Innovative installation between stainless steel bottom vertically glued and the kitchen countertop.

SINKS

TITANIUM

The PVD treatment is a non-toxic and durable technological process that allows to enhance the colour of stainless steel. Three exclusive Artinox finishes are available. Gun Metal, Copper Bronze, and Pale Gold are monochromatic solutions with a high aesthetic impact.

RADIUS

RADIUS MATTE VINTAGE

An elegant and sophisticated sinks family thanks to the combination of Matte Vintage stainless steel and the black finish of the mixers and accessories. Matte Vintage is an Artinox exclusive, characterized by a non-uniform surface that enhances the materiality of stainless steel.

OUTDOOR

STARTAC MARINA

The kitchen expands into new outdoor spaces. Made of stainless steel AISI 316 L, Startac is designed to provide the same functionality and hygiene in the outdoor. Coming with a built-in cover, once closed, Startac discretely becomes one with the worktop.

GHOST MARINA

Made in premium quality AISI 316 L stainless steel, this brilliant solution is the ideal choice when space is limited. The lowering of the mixer docking area allows to conceal the mixer within the basins volume.

RADIUS MARINA

This range is characterized by the chemical composition of AISI 316 L. This stainless-steel alloy is more resistant to corrosion and oxidation, making it a more suitable choice for the outdoor use, especially in saline environments.

ACCESSORY CHANNELS

ACCESSORY CHANNELS

Developed to contain a range of interchangeable elements, the accessory channel system is perfect for space optimization and to enhance the functionality of the preparation area. Available in a variety of lengths, this modular system is offered in three different installation options for the kitchen countertop.

INSTALLATIONS

On Top

The accessory channel is designed with a perfect shape, rising 40 mm on the benchtop.

MODULARITY 12, 10, 8, 6, 5 AND 4 UNIT

Top mount

The top mount allows for easy installation on every type of kitchen top.

MODULARITY 12, 10, 8, 6, 5 AND 4 UNIT

Under mount

There are no visible frames from the top, and the equipped elements are aligned with the surface.

MODULARITY 12, 10, 8, 6, 5 AND 4 UNIT

Microfiber for finishing.

Size 40x40 cm – pack of 3 pieces.

Cod. **SS 02774** [12 Pks.]

ARTINOX workstation sinks are made of AISI 304 18/10 (EN 1.4301) stainless steel, a chromium-nickel steel alloy. Stainless steel is the hygienic material par excellence, tough and very resistant to corrosion, the ideal product for contact with food. All ARTINOX items are made in compliance with the strictest quality standards and tested one by one.

WARNINGS

Like all materials, stainless steel also requires regular care and daily cleaning. Improper use can damage the surface even permanently. The following recommendations protect the sink from corrosion damage caused by unsuitable cleaning agents.

CLEANING

For daily cleaning, we recommend squeezing a sponge out of hot water and dipping it in white vinegar. For deep cleaning, use ONLY official Artinox products, which can be purchased from authorized dealers or by consulting www.artinox.com.

MAINTENANCE

After each use, clean, rinse and dry the sink thoroughly with a soft cloth.

DO NOT leave detergents and cleaning products in contact with the surface for a long time.

DO NOT use hydrochloric acid, hydrofluoric acid, phosphoric acid, bleach, ammonia, or detergents that contain even small doses of these substances. DO NOT use abrasive sponges, detergents and creams.

DO NOT leave objects, ferrous and non-ferrous metals inside the sink

GENERAL SELLING CONDITIONS

How to order:

We accept only written and complete orders. The order must indicate codes, as written in this price-list. Confirmation of order will follow, by fax and/or mail, and it is considered accepted if not contested within 3 days. The company Artinox spa reserves the right to change and/or cancel, if necessary, products, dimensions, descriptions and prices shown in this price list without notice and without any possibility for the customer to claim.

Delivery:

The delivery times are approximate and in reference to normal working conditions. In no case shall the seller be asked for reimbursement for any damages due to delayed delivery, nor shall the delay constitute a reason for cancellation of the contract. Quality and type of goods must be checked by the buyer at delivery.

Delivery terms:

Exw Conegliano (Treviso) Italy. Goods travel at the consignee's risk, even in case of free of charge delivery.

Packing:

Standard packing in cardboard boxes included in price. Special packing shall be charged at cost.

Prices:

The prices shown in this price list are exclusive of: vat, carriage, special packing, customs duties, wooden crates and/or pallets, assembly and final test and inspection.

Terms of payment:

To be agreed. All charges related to payment of bank commissions, stamp duties, etc. Shall be debited on the invoice. In the event of delayed payments, the company reserves the right to suspend delivery of the orders on hand, without obligation to give notice. The parties agree that the buyer will get the ownership of the material after payment of the total price, Accessories included, but he will take the risks after delivery of the goods [ex art. 1523 c.c. Italian law]. After the payment terms agreed by the two parties have fallen due, no complaint relating the quality of the goods can be made, unless regular payment of the goods has been effected.

Default interest:

Any delay in payments automatically leads to the charging of default interest at a rate of 1,5 % a month from the expiry date which is indicated in the invoice. Any charges borne to recover due amounts are for the buyer's account.

Warranty:

The warranty period is 24 months from the date of dispatch and covers every single part. The seller is not responsible for direct and/or indirect damages caused by and/or to equipments, plants, people for improper use, for bumps, wrong installation, for use out of tolerance.

Please give immediately notice of surface flaws such as blows, scratches, stains or breakages before installing or using any product. Any defect pointed out after the installation, as not attributable to fabrication flaws, will be excluded from the warranty.

Faulty parts are to be delivered ex our works (Conegliano Treviso - Italy) and will be replaced under guarantee only after through check. The recognized faulty parts will be replaced and mailed or sent free of charge by carrier. The guarantee does not cover the charges of replacement of parts, it is not transferable and complete replacement of parts or appliance is at the final discretion of the manufacturer.

Each product in this catalog is manufactured in compliance to current regulations and CE directives.

All data shown are not binding.

Artinox S.p.a. reserves the right to make changes deemed useful for the improvement of its offer at any time, without notice and disclaiming any responsibility for errors or inaccuracies.

The reproduction of the colors in the catalog are to be considered indicative.
